

Of The Mind

1.

A wild free find
Cultivate the garden of the mind
Share,
Care,
Not just looking through a glass-eyed stare
Not just black and white
Kissed by day and night
See creation's flower bright
A wild free find
Cultivate the garden of the mind

2.

Garden of the mind
Tend
With no pretend
Keep growing
Keep sowing
With mountains to climb
White clouds find
Look after the garden of the mind
Keep seeing
Keep feeling
Nature's wild free flowing
Keep growing
Keep sowing
Keep
Tend
With no pretend
Garden of the mind.

3.

A different word spoken
The mind kept open
A different see
A all different be
Experienced, perhaps old
By the younger generation now told
Told not asked
Wearing their career mask
Free at peace
Understanding of each other must not cease
A different word spoken
The mind kept open

4.

Have no fear
Be very clear
Make sure you don't blunder
Don't create thunder
Don't the brain plunder
No wrong steal
Things have to be real
The healing mind must feel things are right
Not a constant nonsense, a bit mad silly fight

5.
